haute glass  
collection

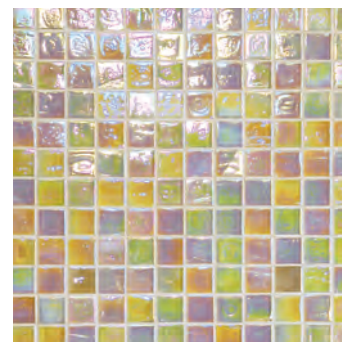

Smith - Emery Laboratories

series	haute glass	
type of test	1 x 1	5/8 x 5/8
static coefficient of friction (C.O.F)	Wet = ≥.40 Dry = ≥.83	Wet = ≥.37 Dry = ≥.83
crazing resistance (steam) 150 psi	No affect, 1 cycle @ 150 psi	
breaking strength (6 x 6)	≥ 410 Lbs.	≥ 425 Lbs.
chemical resistance acid, alkali	Unaffected 24 hour test	

**AECHAUIIR58** ice ice baby  
3/8" opaque iridescent

**AECHAUIIR11** ice ice baby  
1" x 1" opaque iridescent

**AECHAUIINRBR58114** ice ice baby  
3/8" x 1 1/2" brick pattern mosaic

AE  
ALYSE EDWARDS  
TILE & STONE

AlysEdwards sets a new design trend of embellishment...

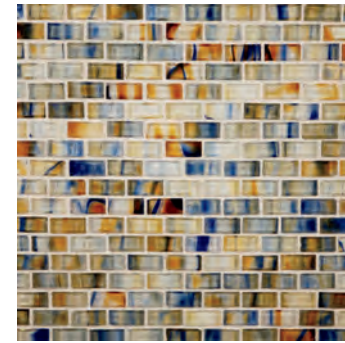

*haute glass* is all about rich light-reflecting low key luminescence. It's devastatingly sexy, with fetishistic designs and characteristically Italian. Every color would look at home on the set of a Fellini movie. *haute glass* is the Va-Va-Voom you have been looking for. It's a collection that's embraced by both the contemporaries and traditionalist alike. This hand made artisan glass is available in a range of thirteen trend setting colors, two finishes, and three sizes.
